WHAT IS BUSINESS REPOSITORY

A Business Process Repository is a central location for storing information about how an enterprise operates. This information may be contained in various media including paper, film or electronic form with a storage mechanism appropriate to the medium.

## Create a Business Repository

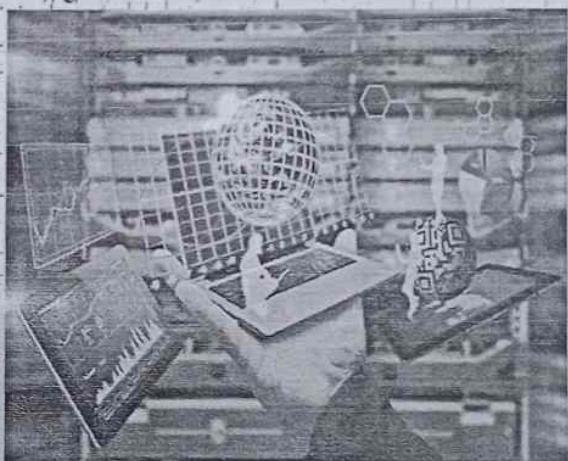

Business repositories enable you to manage all the assets you need for one purpose in one place. You must be a repository administrator to create and share asset repositories.

Workshop on Developing Online Repository of Business Plan / Prototypes Developed & Way Forward Plan

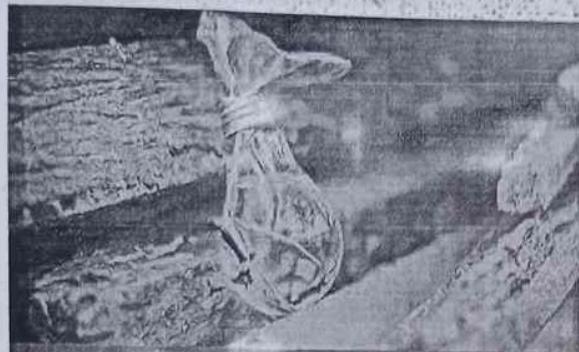

## Online product repository

The main application of our repository is creating product databases that quickly transfer information to and from the customer, using any communication channel, e.g. through mobile applications, the internet or front desk applications.

17:15 / 48:25

The repository was built with the aim to facilitate new opportunities for businesses and academia to collaborate, connect and innovate, in future.
